

## Amendment-3

**Date:** 27<sup>th</sup> June 2021

**Announcement no:** HDC (161)-PRO/IU/2021/224

**Project:** Design, Supply & Installation of CCTV surveillance system in Hiya Housing Project in Hulhumalé Phase II

### Attachments:

1. Require Minimum Specification

### Queries raised by the interested bidders for the tender

1. You have stated a requirement of wireless cameras for Lifts. Do we need to provide UPS backup power for these cameras and all active components of the wireless camera system? Please note if UPS power is to be delivered it could mean cabling to relevant devices which in turn means the need for a wireless camera setup is irrelevant. Hence can we propose wired PoE+ camera backed by PoE+ power?

**Ans:** All the equipment's including Wireless equipment's should be powered through UPS backup power. The project is a design and build project, so the contractor can propose a design.

### Amendments by HDC

1. With regards to the response received for the query 34 of Amendment-2 (to propose other Camera Brands), the List of Acceptable Brands for Cameras, has been revised as follows.

#### **\*List of Acceptable Brands for Cameras –**
